Good morning. We want to make you aware of work on two important issues:

Atlantic Coast Pipeline – N&O Opinion Editorial

David Fountain, Duke Energy's North Carolina President, submitted the attached opinion editorial to The News & Observer last week regarding the importance of the Atlantic Coast Pipeline in light of recent economic development news.

Now more than ever, this critical infrastructure project will increase our competitiveness when recruiting industry to North Carolina. Building the Atlantic Coast Pipeline will enhance our state's infrastructure necessary to power transformative job growth opportunities through safe, more affordable, clean-burning natural gas.

The critical energy infrastructure provided by the pipeline will help meet the state's growing energy needs, giving us the ability to attract new businesses and industries that can create thousands of permanent, good-paying jobs while delivering more affordable energy for our families and businesses.

I hope you will join me in sharing this perspective and encouraging state leaders to support this vital project for our state's economic future.

<http://www.newsobserver.com/opinion/op-ed/article194523899.html>

Repowering Puerto Rico

Duke Energy is joining the U.S. utility industry effort to help rebuild electric infrastructure and restore power to the island of Puerto Rico, where hundreds of thousands of residents are still without electricity after being slammed by Hurricane Maria last fall.

Yesterday, about 75 of our North Carolina line workers and support personnel departed Raleigh and Charlotte to help repower Puerto Rico. They are part of a larger contingent of more than 200 employees from Duke Energy operations in the Midwest, Carolinas and Florida who are taking part in the effort.

Our team will join personnel from nearly two dozen other U.S. electric companies deploying resources – a total of nearly 1,500 additional restoration workers.

The workers will join the Puerto Rico Electric Power Authority (PREPA), FEMA and the U.S. Army Corps of Engineers (USACE), which have had incident management teams on the island since early December completing damage assessments of Puerto Rico's energy grid and developing a coordinated restoration plan.

Our company has a long history of helping utilities in the U.S. recover and rebuild after storms and other natural disasters. We've also benefitted greatly from mutual assistance from other utilities when our system has been severely damaged and our customers were in the dark, most recently with Hurricane Matthew and Hurricane Irma. We're proud of the tremendous team working to repower Puerto Rico and return life to normal for its citizens.

While our teammates are deployed to Puerto Rico, our line workers and support personnel – including contractor resources – remain in the communities we serve and stand ready to respond to winter storms across all Duke Energy service territories.

Please feel free to contact us if you have any questions.

Best regards,

Kathy Hawkins

Not familiar with this either. I'm not sure if this is the same thing, but the first I heard of any connection with DNCR was on Thursday evening from Secretary Hamilton. I mentioned it Friday morning. I think she thought their concerns were being incorporated with DEQs as she mentioned natural resources. Julia and William were going to connect with to find out more. Can discuss further if helpful.

Hello, Mr. Tarr:

Thank you very much for your phone call just a little while ago. As you have requested, please find attached the draft programmatic agreement that was submitted to us for comment; you will find our comment in redline embedded in the text and margins.

Also, as I mentioned, here is a link to the Citizens Guide to Section 106, which will provide helpful background information about our office's and the Office of State Archaeology's role in the National Historic Preservation Act's consultation process.
<http://www.achp.gov/docs/citizens-guide-2015.pdf>

Finally, I have attached some recent guidance from the Advisory Council on Historic Preservation on working with state-recognized tribes in the Section 106 process.

My colleagues and I would be very glad to meet with you to brief you more generally on the Section 106 process and our offices' other services and program areas at your convenience.

Please let me know how I may provide further assistance.

With thanks and kindest regards,

Good morning all:

Please find attached a cover letter and **draft** Programmatic Agreement (PA) for the Atlantic Coast Pipeline and Supply Header Project as part of the FERC's ongoing consultations under Section 106 of the NHPA. A hard copy of the letter and the PA is being mailed to your offices as well. We are requesting your review and comment on the draft PA. Please provide any written comments or suggested edits directly to Kevin Bowman and Ellen Armbruster no later than 30 days from today. We have provided a Microsoft Word version of the PA for ease of editing/commenting. If you choose to use the word file, please remember to use tracked changes. Additionally, there are a few blank spaces that reference regulatory citations for federal lands and we hope that the appropriate land managing agencies can identify the correct citations.

Please note that as the PA is in draft form, it should be considered privileged information and not released to the public by your agency or entity. The final version of the PA would of course, be available for public inspection. If you have any questions, please contact Ellen Armbruster, project archaeologist at (202) 502-8330 or Ellen.Armbruster@ferc.gov or myself at (202)-502-6287 or Kevin.Bowman@ferc.gov

Subject: Atlantic Coast Pipeline Programmatic Agreement

Mr. Swearingen:

I would like to recall our signature page on the Atlantic Coast Pipeline Programmatic Agreement. I signed this form by mistake.

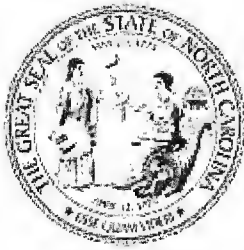

I was in the field all day on Friday and arrived back at my desk late to find a number of forms waiting for my signature. One stack held items upon which I had been briefed and had reviewed. Other

items were near it. The ACP Programmatic Agreement was then inadvertently signed as I headed out the door to make another appointment.

I am sorry for this misunderstanding.

Sincerely,

Kevin Cherry

Dear Mr. Secretary,

Clara has updated me of the call you had with her. About the announcement ceremony in China, I fully understand that Mr. Governor could not come, and this was also the reason I proposed you to be the one lead the team. While I was in North Carolina I have provided the invitation letter per Ms. Gargan's request for Mr. Ken Eudy, senior advisor to Mr. Governor. I think it would be a good idea if you and Mr. Eudy could both represent Mr. Governor.

The ceremony will be arranged as per Chinese government's request. However, from my own perspective I hope to take this opportunity to

have more and better communication with various teams that will support Project Diamond in the next steps or in the future, such as DOT, Dominion Power, NCRR/CSX, nature gas and training/R&D organizations (e.g. Edgecombe County and NCSU) etc. If the representatives from these organizations could tour Triangle and communicate with relevant people at Triangle while they are in China for the ceremony, I believe it will promote better cooperation between Triangle and these organization, esp. considering the agreement with some of these organization have not been concluded.

Clara said that you would be available to talk on your Monday early morning. Could we speak at your 6:30am on Jan. 15? It is a little earlier, as I have set up the call with the County to discuss the agreement afterwards.

Thanks again!

Ding, Yuhua

Subject: Fw: [External] Draft Programmatic Agreement for Atlantic Coast Pipeline and Supply Header Projects

Hello, Mr. Tarr:

Thank you very much for your phone call just a little while ago. As you have requested, please find attached the draft programmatic agreement that was submitted to us for comment; you will find our comment in redline embedded in the text and margins.

Also, as I mentioned, here is a link to the Citizens Guide to Section 106, which will provide helpful background information about our office's and the Office of State Archaeology's role in the National Historic Preservation Act's consultation process. <http://www.achp.gov/docs/citizens-guide-2015.pdf>

Finally, I have attached some recent guidance from the Advisory Council on Historic Preservation on working with state-recognized tribes in the Section 106 process.

My colleagues and I would be very glad to meet with you to brief you more generally on the Section 106 process and our offices' other services and program areas at your convenience.

Please let me know how I may provide further assistance.

With thanks and kindest regards,

Ramona Bartos

CAUTION: External email. Do not click links or open attachments unless verified. Send all suspicious email as an attachment to report.spam@nc.gov.

Good morning all:

Please find attached a cover letter and **draft** Programmatic Agreement (PA) for the Atlantic Coast Pipeline and Supply Header Project as part of the FERC's ongoing consultations under Section 106 of the NHPA. A hard copy of the letter and the PA is being mailed to your offices as well. We are requesting your review and comment on the draft PA. Please provide any written comments or suggested edits directly to Kevin Bowman and Ellen Armbruster no later than 30 days from today. We have provided a Microsoft Word version of the PA for ease of editing/commenting. If you choose to use the word file, please remember to use tracked changes. Additionally, there are a few blank spaces that reference regulatory citations for federal lands and we hope that the appropriate land managing agencies can identify the correct citations.

Please note that as the PA is in draft form, it should be considered privileged information and not released to the public by your agency or entity. The final version of the PA would of course, be available for public inspection. If you have any questions, please contact Ellen Armbruster, project archaeologist at (202) 502-8330 or Ellen.Armbruster@ferc.gov or myself at (202)-502-6287 or Kevin.Bowman@ferc.gov

Thank you for your assistance,

Subject: Atlantic Coast Pipeline Programmatic Agreement

Mr. Swearingen:

I would like to recall our signature page on the Atlantic Coast Pipeline Programmatic Agreement. I signed this form by mistake.

I was in the field all day on Friday and arrived back at my desk late to find a number of forms waiting for my signature. One stack held items upon which I had been briefed and had reviewed. Other items were near it. The ACP Programmatic Agreement was then inadvertently signed as I headed out the door to make another appointment.

I am sorry for this misunderstanding.

Sincerely,

Kevin Cherry

I need to understand how this could get negotiated and signed at DNCR without their legal counsel's review.

As requested, I am forwarding a series of emails related to the ACP. This is the copy of the transmittal letter from the Advisory Council with copy of PA signed up until they sent it out. The letter is dated the 1-11-18, but the signature of the ACHP Director is 1-12-18. NC signature not included as email sent after 5PM. (see next email)

I still have the request to review and comment on the use of two parking lots to use as staging areas for tree-cutting for the ACP. I did reach out to DEQ about this through Sheila Hollman, and late Friday had a call from a gentleman with DEQ who said that either the Raleigh or Fayetteville office of DEQ had approved cutting, but the other had not. That did not answer my question as there was no indication of which counties are approved and which are not approved. So, I couldn't immediately match up those with the locations of the two parking lots. As it was late in the day, I left it for Tuesday to follow up.

Have had the request for about 10 days from Dominion's consultant, maybe a little more. Have not responded, pending answer to my question to DEQ. Until I can check the actual paperwork on Tuesday, I am not sure of when we have to respond, but I think we have some time.

Subject: Fw: [External] Draft Programmatic Agreement for Atlantic Coast Pipeline and Supply Header Projects

Hello, Mr. Tarr:

Thank you very much for your phone call just a little while ago. As you have requested, please find attached the draft programmatic agreement that was submitted to us for comment; you will find our comment in redline embedded in the text and margins.

Also, as I mentioned, here is a link to the Citizens Guide to Section 106, which will provide helpful background information about our office's and the Office of State Archaeology's role in the National Historic Preservation Act's consultation process. <http://www.achp.gov/docs/citizens-guide-2015.pdf>

Finally, I have attached some recent guidance from the Advisory Council on Historic Preservation on working with state-recognized tribes in the Section 106 process.

My colleagues and I would be very glad to meet with you to brief you more generally on the Section 106 process and our offices' other services and program areas at your convenience.

Please let me know how I may provide further assistance.

With thanks and kindest regards,

Ramona Bartos

CAUTION: External email. Do not click links or open attachments unless verified. Send all suspicious email as an attachment to report_spam@nc.gov.

Good morning all:

Please find attached a cover letter and **draft** Programmatic Agreement (PA) for the Atlantic Coast Pipeline and Supply Header Project as part of the FERC's ongoing consultations under Section 106 of the NHPA. A hard copy of the letter and the PA is being mailed to your offices as well. We are requesting your review and comment on the draft PA. Please provide any written comments or suggested edits directly to Kevin Bowman and Ellen Armbruster no later than 30 days from today. We have provided a Microsoft Word version of the PA for ease of editing/commenting. If you choose to use the word file, please remember to use tracked changes. Additionally, there are a few blank spaces that reference

regulatory citations for federal lands and we hope that the appropriate land managing agencies can identify the correct citations.

Please note that as the PA is in draft form, it should be considered privileged information and not released to the public by your agency or entity. The final version of the PA would of course, be available for public inspection. If you have any questions, please contact Ellen Armbruster, project archaeologist at (202) 502-8330 or Ellen.Armbruster@ferc.gov or myself at (202)-502-6287 or Kevin.Bowman@ferc.gov

Subject: Atlantic Coast Pipeline Programmatic Agreement

Mr. Swearingen:

I would like to recall our signature page on the Atlantic Coast Pipeline Programmatic Agreement. I signed this form by mistake.

I was in the field all day on Friday and arrived back at my desk late to find a number of forms waiting for my signature. One stack held items upon which I had been briefed and had reviewed. Other items were near it. The ACP Programmatic Agreement was then inadvertently signed as I headed out the door to make another appointment.

I am sorry for this misunderstanding.

Signature

CAUTION: External email. Do not click links or open attachments unless verified. Send all suspicious email as an attachment to report.spam@nc.gov.

Good morning,

FERC has received comments from all signatories to the revised Programmatic Agreement (PA) for the Atlantic Coast Pipeline and Supply Header Projects circulated January 5, 2018. We have incorporated all comments into the PA to the greatest extent practicable and we appreciate your input. We therefore request your agency or entity's signature to the attached. Please sign the appropriate signature block via hard copy; and scan to .pdf and return via email to Ellen Armbruster and myself. Upon receipt of the signature of all signatories FERC will compile and distribute the executed PA. FERC has signed the attached version.

Thank you for your continued assistance and review,

Kevin

Subject: RE: Revised Programmatic Agreement for the ACP / Supply Header Projects -- Final Review (2-day Review Turnaround)

Good afternoon,

I hope this message finds you well, I'm writing to inquire as to whether this distribution list has any further comments on the revised Programmatic Agreement sent last week. I understand that both the ACHP and the NPS have indicated to us a few comments will be provided shortly, and that the WVDCH provided comments already which we have addressed (Thank you!).

However, if the remainder of the group could please advise whether we should expect further comments or have nothing else to provide, we would greatly appreciate it.

Thank you!

Subject: Revised Programmatic Agreement for the ACP / Supply Header Projects -- Final
Review (2-day Review Turnaround)

Greetings all. Attached you will find the revised Programmatic Agreement for the ACP / Supply Header Projects. The FERC appreciates the comments received during the first round of review. We have attempted to address each comment and revise the PA accordingly.

Two Word documents are attached—the draft version circulated in November, and the cleaned up revised version. I am not including the marked up track changes document, because every line has some sort of marks/strikethroughs which makes the document fairly unreadable.

I'm also attaching the Unanticipated Finds Plans and other pertinent appendices (pdfs).

Please return your comments via e-mail to Ellen Armbruster (ellen.armbruster@ferc.gov) and Kevin Bowman (kevin.bowman@ferc.gov) by noon this coming Tuesday (January 9).

Only comments/edits received by this deadline can be accommodated. Thanks for your diligent efforts in finalizing this important document. Please direct any questions to Ms. Armbruster at her e-mail or 202-502-8330.

Sincerely,

Dave Swearingen

Thank you and I am still getting you the answer about curation. Hold up is that our State Archaeologist, who can best answer it, is out at a damaged cemetery site that has bones uncovered (animal, but not obvious to the non-archaeologists who called the press).

Hopefully our answer by this afternoon will suffice.

Also, I agree that a travelling exhibit sounds like an excellent idea, but since the PA provides for the details of the public education program to be fleshed out in the treatment plans (stipulation IV), we didn't want to get into the specifics for one state in the PA itself. When the treatment plans are submitted you should, of course, require as much detail as you feel necessary.

Thanks
Ellen

Ms. Gledhill-Earley,

Thanks you for your comments. With respect to the comment regarding curation, if the private landowners won't release the artifacts through donation (the PA stipulates to a repository approved by the SHPOs) they want the artifacts returned to them. Is there a state law in North Carolina that specifies who owns the artifacts taken from private land? Artifacts approved for donation would be curated in any repository you specify.

Subject: Tree cutting for ACP

I still have the request to review and comment on the use of two parking lots to use as staging areas for tree-cutting for the ACP. I did reach out to DEQ about this through Sheila

Hollman, and late Friday had a call from a gentleman with DEQ who said that either the Raleigh or Fayetteville office of DEQ had approved cutting, but the other had not. That did not answer my question as there was no indication of which counties are approved and which are not approved. So, I couldn't immediately match up those with the locations of the two parking lots. As it was late in the day, I left it for Tuesday to follow up.

Have had the request for about 10 days from Dominion's consultant, maybe a little more. Have not responded, pending answer to my question to DEQ. Until I can check the actual paperwork on Tuesday, I am not sure of when we have to respond, but I think we have some time.

Hello, Mr. Tarr:

Thank you very much for your phone call just a little while ago. As you have requested, please find attached the draft programmatic agreement that was submitted to us for comment; you will find our comment in redline embedded in the text and margins.

Also, as I mentioned, here is a link to the Citizens Guide to Section 106, which will provide helpful background information about our office's and the Office of State Archaeology's role in the National Historic Preservation Act's consultation process.
<http://www.achp.gov/docs/citizens-guide-2015.pdf>

Finally, I have attached some recent guidance from the Advisory Council on Historic Preservation on working with state-recognized tribes in the Section 106 process.

My colleagues and I would be very glad to meet with you to brief you more generally on the Section 106 process and our offices' other services and program areas at your convenience.

Please let me know how I may provide further assistance.

With thanks and kindest regards,

Good morning all:

Please find attached a cover letter and **draft** Programmatic Agreement (PA) for the Atlantic Coast Pipeline and Supply Header Project as part of the FERC's ongoing consultations under Section 106 of the NHPA. A hard copy of the letter and the PA is being mailed to your offices as well. We are requesting your review and comment on the draft PA. Please provide any written comments or suggested edits directly to Kevin Bowman and Ellen Armbruster no later than 30 days from today. We have provided a Microsoft Word version of the PA for ease of editing/commenting. If you choose to use the word file, please remember to use tracked changes. Additionally, there are a few blank spaces that reference regulatory citations for federal lands and we hope that the appropriate land managing agencies can identify the correct citations.

Please note that as the PA is in draft form, it should be considered privileged information and not released to the public by your agency or entity. The final version of the PA would of course, be available for public inspection. If you have any questions, please contact Ellen Armbruster, project archaeologist at (202) 502-8330 or Ellen.Armbruster@ferc.gov or myself at (202)-502-6287 or Kevin.Bowman@ferc.gov

Thank you for your assistance,
